Salcedo Bolanos Adrian Jose / Sign

자 기 소 개 서 (국문)

일반사항

My name is Adrian Salcedo, and I am excited to apply for a position in South Korea. As an international candidate, I bring a unique perspective, adaptability, and a strong commitment to excellence. With a diverse background and a passion for professional growth, I am confident in my ability to contribute positively to your organization. I have earned a master's degree in electrical and computer engineering from Korea University. This academic journey has provided me with a solid foundation of knowledge and practical skills in power energy conversion systems, control of electric machines and power electronics. Moreover, I have knowledge in web development, in areas such as front-end, specifically HTML CCS using tools such as Flexbox, Grid and Bootstrap.

Besides I have experience working using JavaScript and NodeJS to create and manage the backend of websites. I also worked using databases using SQL commands and Postgres SQL to make requests from database for the website functioning.

Additionally, my experiences in research and collaborative projects have honed my critical thinking and problem-solving abilities. I possess a diverse skill set that includes teamwork, work under pressure, and experience doing research. These skills have been instrumental in achieving significant outcomes in obtaining my master's degree and publishing research papers.

- Some of the strong points about myself are cultural diversity since a foreigner, I bring a unique perspective and cultural diversity to the workplace. My exposure to different cultures has cultivated open-mindedness, adaptability, and the ability to work effectively with individuals from diverse backgrounds, language Proficiency, I have invested significant time and effort in learning the Korean language, enabling me to effectively communicate and collaborate with Korean colleagues and clients.
- Some of my weak points can be, limited local network as a foreigner, I may have a limited professional network in South Korea. However, I am proactive in building connections and have taken steps to expand my network through industry events, professional associations, and online platforms, local market knowledge, while I may have a strong skill set and expertise in my field, there might be gaps in my knowledge of the local market and industry-specific nuances in South Korea. However, I am a quick learner and have a strong inclination for research and staying updated with market trends.

Sincerely,

Adrian Jose Salcedo Bolanos.
